HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Table 1. Mortality rates and standardized mortality ratio (SMR) in HIV-infected adults, ANRS CO8 APROCO-COPILOTE and ANRS CO3 AQUITAINE cohorts, 1997-2005, overall and according to gender, HIV transmission group and co-infection by hepatitis C virus at baseline.
